

STEP ONE**Determining the offence category**

The court should determine the offence category with reference **only** to the factors listed in the tables below. In order to determine the category the court should assess **culpability** and **harm**.

The level of culpability is determined by weighing up all the factors of the case. **Where there are characteristics present which fall under different levels of culpability, the court should balance these characteristics to reach a fair assessment of the offender's culpability.**

Where the offence is committed in a domestic context, consideration must be given to the definitive guideline 'Overarching Principles: Domestic Abuse'

Culpability demonstrated by one or more of the following:**A - High culpability:**

- Offence committed in domestic context
- Targeting of vulnerable victim, where victim vulnerable by personal characteristics or circumstances
- Prolonged assault
- Offence involves a significant degree of violence
- Threatened or actual use of weapon or weapon equivalent*
- Leading role in group activity

B – Lesser culpability

- Lesser role in group activity
- Mental disorder or learning disability, where linked to the commission of the offence
- All other cases not captured by category 1 factors

*Examples of a weapon equivalent can include but are not limited to: a shod foot, use of acid, use of animal in commission of offence.

Harm

The court should consider the factors set out below to determine the level of harm that has been caused or was intended to be caused to the victim.

Category 1	More than minor physical or psychological harm
Category 2	Minor physical or psychological harm
Category 3	No physical injury No/very low level of distress

STEP TWO

Having determined the category, the court should use the corresponding starting points to reach a sentence within the category range below. The starting point applies to all offenders irrespective of plea or previous convictions. A case of particular gravity, reflected by multiple features of culpability in step one, could merit upward adjustment from the starting point before further adjustment for aggravating or mitigating features, set out below.

HARM	CULPABILITY	
	A	B
Harm 1	<p>Starting point High level Community Order</p> <p>Category Range Low level Community Order - 26 weeks' custody</p>	<p>Starting point Medium level Community Order</p> <p>Category Range Low level Community Order - 16 weeks' custody</p>
Harm 2	<p>Starting point Medium level Community Order</p> <p>Category Range Low level Community Order - 16 weeks' custody</p>	<p>Starting point Band B fine</p> <p>Category Range Band A Fine - low level Community Order</p>
Harm 3	<p>Starting point Band B fine</p> <p>Category Range Band A Fine - Low level Community Order</p>	<p>Starting point Band A Fine</p> <p>Category Range Discharge – Band C Fine</p>

The table below contains a non-exhaustive list of additional factual elements providing the context of the offence and factors relating to the offender. Identify whether any combination of these, or other relevant factors, should result in an upward or downward adjustment from the starting point. In some cases, having considered these factors, it may be appropriate to move outside the identified category range.

When considering imposing a custodial sentence, the court should also consider the Imposition guideline, and specifically the section on imposition of custodial sentences. In particular the following must be considered;

- 1) **Has the custody threshold been passed?**
- 2) **If so, is it unavoidable that a custodial sentence be imposed?**

Factors increasing seriousness
