Notes:

1) Figures shown here differ from those published by the MoJ, as there was one kidnapping case in the CPD in 2019 which indicates that the offender was sentenced in a magistrates' court. This case has been excluded from the above table as this offence is indictable only, and can therefore only be sentenced in the Crown Court.

2) Figures presented for 2020 include the time period since March 2020 in which restrictions were placed on the criminal justice system due to the COVID-19 pandemic. It is therefore possible that these figures may reflect the impact of the pandemic on court processes and prioritisation and the subsequent recovery, rather than a continuation of the longer-term series, so care should be taken when interpreting these figures.

Notes:

1) Sentence length intervals do not include the lower bound, but do include the upper bound sentence length. For example, the category 'Less than 2 years' includes sentence lengths less than and equal to 2 years, and '2 to 4' includes sentence lengths over 2 years, and up to and including 4 years.

2) Figures shown here differ from those published by the MoJ, as there were three false imprisonment cases in the CPD between 2018-2020 which indicate that the offenders were sentenced in a magistrates' court. These cases have been excluded from the above table as this offence is indictable only, and can therefore only be sentenced in the Crown Court.

3) The statutory maximum sentence for this offence is life imprisonment.

4) Figures presented for 2020 include the time period since March 2020 in which restrictions were placed on the criminal justice system due to the COVID-19 pandemic. It is therefore possible that these figures may reflect the impact of the pandemic on court processes and prioritisation and the subsequent recovery, rather than a continuation of the longer-term series, so care should be taken when interpreting these figures.

Notes:

1) Sentence length intervals do not include the lower bound, but do include the upper bound sentence length. For example, the category 'Less than 1 year' includes sentence lengths less than and equal to 1 year, and '1 to 2' includes sentence lengths over 1 year and up to and including 2 years.

2) The statutory maximum sentence for this offence is 7 years' custody.

3) Figures presented for 2020 include the time period since March 2020 in which restrictions were placed on the criminal justice system due to the COVID-19 pandemic. It is therefore possible that these figures may reflect the impact of the pandemic on court processes and prioritisation and the subsequent recovery, rather than a continuation of the longer-term series, so care should be taken when interpreting these figures.

4) While these sentences appear to exceed the statutory maximum, they are estimates only; there are no post guilty plea sentence lengths exceeding the statutory maximum.

2) Figures shown here differ from those published by the MoJ, as there were four blackmail cases in the CPD between 2010-2020 which indicates that the offender was sentenced in a magistrates' court. These cases have been excluded from the above table as this offence is indictable only, and can therefore only be sentenced in the Crown Court. There was also an indeterminate sentence in 2012 which has been excluded from the above table.

Therefore, these volumes and proportions should be treated with caution.

Notes:

1) This offence came into force in 2015 and the legislation was amended in 2021 to also include threats to disclose private sexual images. Therefore, tables for this offence are presented for the years 2015-2021. Currently, there is no way of disaggregating the threats to disclose offences from the substantive offence using the data, so the figures for 2021 may include some threats to disclose offences (if there were any).

2) The statutory maximum sentence for this offence is 2 years' custody.

3) Sentence length intervals do not include the lower bound, but do include the upper bound sentence length. For example, the category 'Up to 3 months' includes sentence lengths less than or equal to 3 months, and '3 to 6' includes sentence lengths over 3 months, and up to and including 6 months.

4) Figures presented for 2020 include the time period since March 2020 in which restrictions were placed on the criminal justice system due to the COVID-19 pandemic. It is therefore possible that these figures may reflect the impact of the pandemic on court processes and prioritisation and the subsequent recovery, rather than a continuation of the longer-term series, so care should be taken when interpreting these figures.

5) While these sentences appear to exceed the statutory maximum, they are estimates only; there are no post-guilty plea sentence lengths exceeding the statutory maximum.
